THE speech of the Acting Attorney-General is moving the second reading of the new Opium Bill at the meeting of the Legislative Council on Friday, though somewhat prolix, was a lucid explanation of the circumstances that led to the conclusion of the agreement arrived at by the Joint Commission, of the position of the Colony in connection with the -Additional Article of the Chefoe Convention, and of the scope and objects of the proposed perused by every person engaged in trade in here by the Coromands! yesterday on his way to collected on account of this mistake, and the their own opinion upon it, and learn for ther selves how the matter stands. ever, will be difficult to meet, and we await ous to recapitulate in an Advertisement, but with interest the proposals they have to make. But we hope that no proposal involving the collection of Chinese duties in the Colony-whether by Government or by Chinese agents-will either be made or entertained. For many years we have been protesting against the constant infringeof a British Colony and a free port, an abuse which the Government have either been unable or unwilling to put down. In and as yet only 100 chests have paid duty and deed the existence in the Colony of an agency of the Haikwan has of late been almost awacknowledged institution. The place has always been overrun by his spies; one evil at least There are still 100,000 piculs of rice to be shipped from which the new agreement will deliver us. Any attempt therefore to relieve the Chinese Government of the duty of collecting even a portion of their revenue should be strenuousv resisted. The bonest retail dealers in opium deserve sympathy and merit whatever assistance can be given to them to continue Rules of H.B.M. It is, however, most advisable that the Council should have the assistance of the Chief Justice in considering the Bill in Committee, and an adjournment that would deprive them of this assistance is to be deprecated. The adjournment is regret. ably short, but the parties concerned wil be allowed to be represented by counsel, and tion of the Legislature any modifications. amendments, or suggestions which can be after a short battle, the runners withdrew. He leaves a wife and an inlief. If, however, the hop, member has an fant, both of whom accompanied him to this alternative scheme to propose, freer from objection than the proposed Bill, we hope he will lose no time in bringing it forward, and that his colleagues will lend him their most

earnest support. The question is not only one fraught with the highest importance to the interests of the Colony, but it presses for immediate solution. Sir ROBERT HART is at the door asking for the fulfilment of the agreement signed in September last, and behind him the Chinese Government demanding the execution of the conditions of the Chefoo Convention. It is, however, because we must fully believe that the agree-| 22 ment will at least minimise the grievances we have had to complain of in the past, and that it will effectually conserve the freedom of the port in the future, at the same time maintaining British prestige and authority unimpaired, that we accept it with that satisfaction and relief which arise from finding the inevitable less disagreeable and irksome than was expected. Finally, there is consolation even for the dubious; should the Ordinance be found to be injurious either to the trade or revenue of the Colony, the Government will have the

PRESENTATION .BY THE CRICKET CLUB TO MR. H. FOSS.

At the conclusion of the cricket match on Baturday afternoon Mr. G. S. Coxon, on behalf of the members of the Cricket Club, presented to Mr. H. Foss, late Hon. Secretary and Treasurer. with a handsome good watch, as a mark of their appreciation of the services rendered by him during his long connection with the Club. Mr. Coxon, in making the presentation,

-We are met here, gentlemen, to wish good-bye. pleasant trip, and the best of good fortune at nome to a gentleman who has been long connect. ed with oricketing circles in Hongkong. I refer to our esteemed friend, Mr. Foss, Mr. Foss's connection with the Hongkong Cricket. Club extends over a period of some 17 or 18 years. During that time he has been, one might almost say, a cricket enthusiant. He has devoted a great deal of his time to the affairs of the Club, being off and on Hon. Secretary and Hon. Treasurer. and sometimes both. In these positions he has done his duty so well that I think the present position of the Hong kong Cricket Club, both socially and financially, is largely due to his efforts. any public event. If approved of by Government they intended to utilise a building next the Man Mo, Temple. If they found that such a building prospered they might on a future oc-casion, venture to erect a larger place. The library would be supplied with Chinese and foreign periodicals and books. It was mentioned in the newspapers that the Chinese had proposed to erect certain statues and that this scheme had allen through. It was not their intention to allow the same to be said of this proposal. I hat ever resolution was come to at the present meet ing must be carried out. During the period that Sir John Pope Hennessy was Governor in this Colony, he had sanctioned the grant of the Recreation Ground to the Chinese for this pur pose but in the time of Governor Bowen thi was cancelled. They were still permitted to make use of it as a recreation ground, but it was very little good to them since there had been built a latrine at one end and a dust bin at the other, while at any time the Government might see fit to sell it. In the matter, too, of the Tung Wah Hospital, the English Government had sub scribed \$100,000, and therefore they had a voice in its management. But the Chamber of Commerce, which they proposed to build, would be subscribed to wholly and solely by the Chinese, and they would, therefore, have sole control over its management. If the meeting decided on the scheme he had laid before them, every trade and profession among the Chinese must support it. He hoped to see the merchants and traders subscribe in no niggardly manner.

Mr. Leune On observed that if there were any present who did not agree with the scheme just proposed, he hoped they would say so plainly now. It was not their wish that the scheme I see all the prisoners and if he had been there should be adopted unless with the unanimous for a long period, as has been stated. must be the distinct and satisfactory evidence of two witnesses, or there must be one reliable witness and some material facts in corroboration of his statement. There were not two witnesses. with reference to any one point in this case. The fact that the prisoner made certain statements as a witness was not denied, and that was all that most of the witnesses had proved. The principal witness for the prosocution was Ho Ki, who stated that he know the prisoner, and that he was not Loung Ayou but Ayot, and that he had been with him in the prison at Tai Leung. Now there was no other evidence in support of this statement; and supposing the prisoner had told the man that he was so and so, and his parent so and so, and made a different statement on oath in the box, that did not constitute perjury. The first statement was not made on oath, and the presumption was that the statement made on oath was, true. Bosides, the evidence of this Ho Ki had been fittly contradicted. He said that in a certain month in a certain year the prisoner and he were in Tai Leung gool. They had that day produced the gaoler and the accountant of that gool who keeps the records, who said that they knew neither the pri-Model of junks (Hongkong and Whampon Dock somer nor the witness; and the records contained nosuch names. With regard to the alleged perjury in the statement that he had been kidnapped from his aunt's house, the prospontion had not attemped to show that no such deed had been that the alleged kidnapper was in Hongkong; at the time. But this indirect plea of alibi was very feebly supported. There was the evidence of the doctor, who visited the man, who, strange to say, remembered the day he made this visit, patients he had visited shout the same time or the date of incidents that should have concerned him more. The evidence of the other man was more direct, but there was no reliable proof that it was impossible for the kidnapper to have been tion. The prisoner, in stating that he had no marks on his arm, evidently meant that he had no might have had his name on his arm, and made his statement without any intention to deceive. CORRESPONDENCE RESPECTING A PROPOSED LIGHT-HOUSE ON GAP ROCK.

D. W. S.

The following correspondence was presented to the Legislative Council on the 25th March:-THE OFFICER ADMINISTERING THE GOVERN- COMMODORE MOBANT TO THE OFFICER AD-MENT TO THE SECRETARY OF STATE FOR THE COLONIES.

-Government House, Hongkong, 25th November, 1886. sideration, copy of a letter from the Chairman of on the 27th instant in H.M.S. I have the honour proscl. to Hongkong, and to submit a proposal to report that I consider the Gap Rock the best the past year.

At the Meeting held on 5th April, 1898, the Sharetor-General of the Chinese Imperial Customs, extreme of the Lema and Kypong Islands, and below for \$17,050 and with the money received. on behalf of the Chinese Government to con- is, in itself, bold with a channel on each side,

it desirable to visit the different rocks and islands to the South of the Colony accompanied by Officers competent to express an opinion as to the best situation for this Light. Commodore Morant the Senior Naval Officer in the Port, having kindly placed H. M. S. Heroine at my disposal, the different places were visited by me on 27th September last, accompanied by the Commodore, by the Surveyor General, and by the Harbour Master and the Assistant Harbour Master. It will be seen from the annexed reports of these Officers that the Gap Rock, about thirty miles to the South of Hongkong, is considered to be, the best situation for a Lighthouse, and this opinion coincides with those that have been expressed on several previous occasions. 4.—As the question of a Light-house and of

one on the Gap Rock, in particular, is not a new one, I beg to refer to the provious correspondence quoted in the margin. I submit also, for your information, a Minute which I laid before the Council on the 17th September last in reply to a question put by the Honourable A. P. MacEwen to the following effect :- "To call for corres. pondence between Captain McLear of H. Flying Fish and the Government, with the Minutes thereon, respecting a Light-house on Gap-Rock or its vicinity and to move a resolution on . the subject."

5 .- The financial position of the Colony, as have had the henour to report on several occusions, renders it necessary to exercise strict economy although the Revenue is steadily increasing. Last year it yielded \$1,251,890, the highest hitherto received, if the exceptionally large is left out of consideration. This year the revenue will probably exceed \$1,300,000, and lie alongside either island. should the arrangement recently made by the Commissioners appointed under the Chefoo Convention be approved, the increase in future years will be very considerable. On the other hand, however, there are many public works urgently required which have been deferred for want of funds. The Taitam Water-Works, Sanitary Works, and the Military Defences will exhaust the reserve of previous years and also the Loan of £200,000. A new Gaol is urgently wanted the cost of which will be \$400,000, and the prosecution of the Sanitary Works will pro- for the benefit of ships coming from the South bably absorb about \$100,000 a year for the next two years. Country proposes to erect when it has the necessary funds that I fear a considerable time will clapse if the Colony waits for the construction by it of one on the Gan Rock.
